Mr. Timothy Saxton, Superintendent

February 4, 2019

Dear Parent or Guardian,

Parents are more informed and involved when given access to their student's daily academic activity. That involvement leads to additional support for teachers and the school, and leads to accelerated academic achievement.

With Parent Access you can:

- View attendance, homework, grades, missing assignments, current averages for each class
- Easy access to student schedules, teacher contact information, interims and report cards
- View teacher comments
- Set alerts for missing assignments and low grades
- Parents can link multiple students for a single fast access
- Parents can create student accounts
- Parents and students can sort class progress details in chronological order or by assignment type (quizzes, lab, homework, participation, projects, tests, classwork)

Continuing in our proactive approach regarding district finances and to reduce costs, **we will not be “bulk” printing reports cards for students in grades 5-12.**

Parents who wish to view and print a report card, can do so on February 4, 2019.

If you have a problem, or would like a copy printed for you, please contact your child's respective building.

Sincerely,

Mr. Timothy Saxton, Superintendent
