

Intervention Binder

- ❖ This binder contains research based Tier 2A interventions that can be easily applied within the classroom setting for individual or groups of students.

- ❖ The binder is broken into 5 major areas of need. The blue “cover sheet” for each section provides a summary of each intervention and progress monitoring system.
 - Please turn to the area of need (i.e., Reading Fluency, Reading Comprehension, Written Expression, Math, or Behavior).
 - Select an intervention using the summary sheet.

 - Turn to the tabbed intervention.

 - Remove the sheets within the section to make a copy for yourself. **Be sure to return the originals immediately after copying!**

The benefit of this binder is that it links the easiest possible progress monitoring system to each specific intervention! It is not an exhaustive list, but will be a great and simple start.
